**Proven Performance®**  
FOR THE POWERSPORTS INDUSTRY

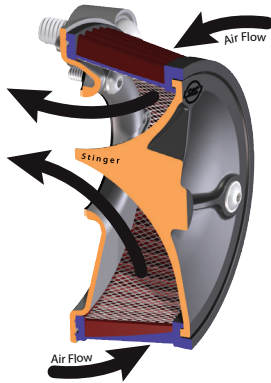

FASTER SINCE 1958

The S&S Stealth air cleaner backplate in this kit is made from the same high-strength, advanced, synthetic polymers used in high performance automotive intake manifolds and high-end handgun bodies! This material offers superior mechanical properties, thermal stability, and chemical resistance. Designed to reduce heat transfer to the intake air for more efficient induction

**170-0352**  
backplate adapter for stock M8 covers

This built-in stinger cone is featured in most S&S air cleaner kits. Designed to direct air smoothly into the bore of the throttle body to reduce turbulence.
