

ROAD KING® FAT HANDLEBAR (STOCK ON '14 CVO™ ROAD KING) – **55800386 (CHROME), 55800388 (BLACK)**

ROAD KING FAT HANDLEBAR

ROAD KING® FAT HANDLEBAR

Similar to Original Equipment handlebar on the '14 CVO™ Road King® model, this beefy 1.25" handlebar places the rider in a laid-back riding posture. This handlebar provides 2.0" of additional pull back and a 1.0" Lower hand position than the Original Equipment Road King bar. The 1.25" diameter bar allows you to tuck the wires inside the bar for a clean, custom look.

Fits '14-later Road King models. All models require separate purchase of additional components for installation.

55800386 Chrome.

NOTE: Installation of handlebars and risers may require a change in clutch cables or lines, throttle cables, or brake lines for some models. All modular lower brake lines listed are based on stock front suspension. Harley-Davidson Motor Company cannot test and make specific fitment recommendations concerning every possible mirror and handlebar combination. Therefore, after installing new mirrors, handlebars, or control cables/lines and before operating the motorcycle, check to ensure that all controls are fully functional and that the mirrors provide the operator a clear view to the rear. Handlebar height is regulated in many areas. Check local laws before installation.
